INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Hidden Valley Lake Community Services District Hidden Valley Lake, California

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and each major fund of Hidden Valley Lake Community Services District, California (District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Board of Directors Hidden Valley Lake Community Services District Hidden Valley Lake, California

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and each major fund of the District as of June 30, 2020, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As more fully described in Note 10A to the financial statements, citizens and the economies of the United States and other countries have been significantly impacted by the coronavirus (COVID-19) pandemic. While it is premature to accurately predict how the coronavirus will ultimately affect the District's operations because the diseases severity and duration are uncertain, we expect the 2020 financial results too will be significantly impacted and the implications beyond 2020, while unclear, could also be adversely impacted. Our opinion is not modified with respect to this matter and no pandemic implications are accounted for in these financial statements.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, District Pension Plan information and District OPEB Plan information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section and combining fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

To the Board of Directors Hidden Valley Lake Community Services District Hidden Valley Lake, California

Smith ~ June

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

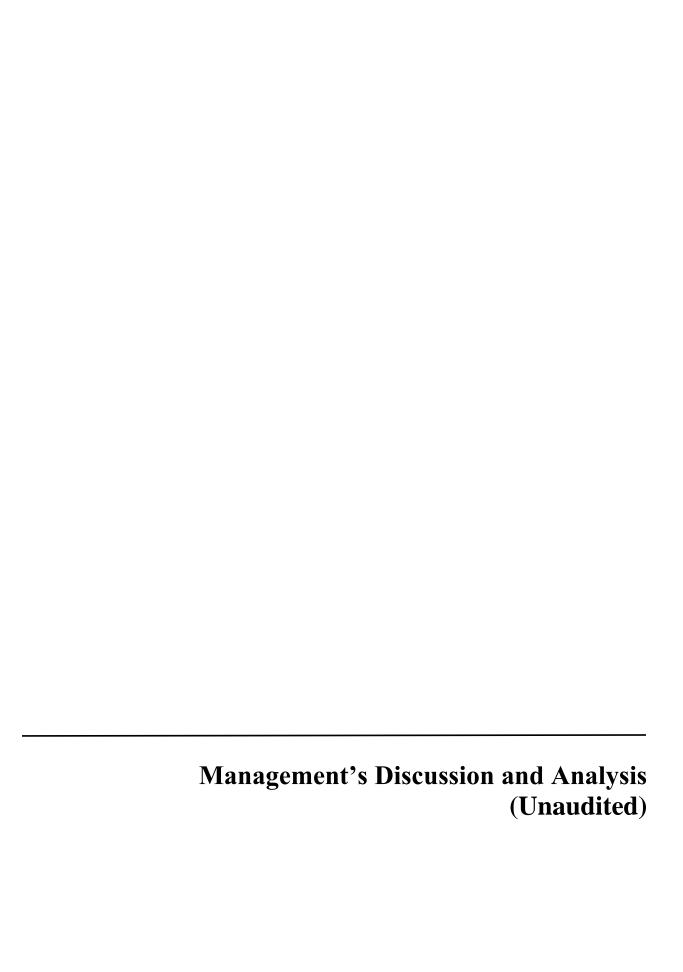

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 21, 2020, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

Smith & Newell CPAs Yuba City, California

December 21, 2020

Introduction

This section of the Annual Financial Report contains a narrative overview and analysis of the Hidden Valley Lake Community Services District (District) financial activities for the year ended June 30, 2020.

The Management's Discussion and Analysis (MD&A) is a required section of the District's Annual Financial Report, as shown in the overview below. The purpose of the MD&A is to present a discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2020. This report will (1) focus on significant financial issues, (2) provide an overview of the District's financial activity, (3) identify changes in the District's financial position, (4) identify any individual fund issues or concerns, and (5) provide descriptions of significant asset and debt activity. Readers are encouraged to consider the information presented here in conjunction with the Annual Financial Statements.

This information, presented in conjunction with the Annual Basic Financial Statements, is intended to provide a comprehensive understanding of the District's operations and financial standing. The annual report consists of a series of basic financial statements and notes to those statements. These statements are organized so the reader can understand the District as an entire operating entity. The statements provide an increasingly detailed look at specific financial activities.

Financial Highlights

Key financial highlights for the fiscal year ended June 30, 2020 were as follows:

- The Statement of Net Position indicates that total assets and deferred outflows of resources exceeded total liabilities and deferred inflows of resources by \$1,590,796. Unrestricted net position represents (\$910,499), and net investment in capital assets was at \$1,309,712, 43 percent higher than 2018/19. The remaining restricted amounts were \$940,599 for debt service and \$250,984 for capital facilities.
- Total net position increased \$365,362, 30 percent in fiscal year 2019/20 compared to a 20 percent decrease of (\$303,880) in fiscal year 2018/19.
- Total assets decreased from \$9,980,989 in fiscal year 2018/2019 to \$9,699,451 in fiscal year 2019/2020, mainly due to reduction of intergovernmental receivables.
- Total liabilities decreased 6 percent from \$9,061,262 in fiscal year 2018/19 to \$8,523,750 in fiscal year 2019/20.
- The District recorded deferred outflows of resources at \$564,558, an increase of \$80,442 and deferred inflows of resources of \$149,463, a decrease of \$28,946, in order to record the different components required by GASBS 68 and 75 for pension and OPEB accounting and reporting. Deferred outflows of resources are technically not assets but increase net position similar to an asset and deferred inflows of resources are technically not liabilities but decrease net position similar to liabilities. See Note 1N in the notes to financial statements for a definition of deferred inflows and outflows of resources.
- Total program and general revenues increased by \$760,219, 21 percent from fiscal year 2018/19 due to continued revenue of FEMA funding emergency response and repairs, and a rate increase.
- Total operating expenses increased \$100,604, 3 percent from fiscal year 2018-19.

Overview of the Financial Statements

The financial section of this report consists of five parts.

- Independent Auditor's Report
- Management's Discussion and Analysis (Unaudited)
- Basic Financial Statements, which include: Government-Wide Financial Statements and Fund Financial Statements
- Notes to Basic Financial Statements
- Required Supplementary Information (Unaudited)
- Supplementary Information, which includes Combining Fund Statements

The Statement of Net Position and Statement of Revenues, Expenses and Changes in Net Position provide information about the activities of the District, presenting an aggregate view of the District's finances. The basic financial statements also include notes explaining pertinent information in the financial statements and provide more detailed data.

The basic financial statements for the District are presented as "Government-Wide" and proprietary or enterprise fund financial statements. The chart below provides an overview of the major features of the financial statements.

	Chart A					
Major Features of Hidden Valley Lake Community Services District						
Government-Wide and Fund Financial Statements						
Government-Wide Statements Fund Statements						
	Government-wide Statements	Proprietary Funds				
Scope	Entire District government	Activities the District water and wastewater systems operated similar to private businesses.				
Required financial statements	Statement of net position	Statement of net position				
	Statement of activities	Statement of revenues expenses, and changes in net position				
		Statement of cash flows				
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus				
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both financial and capital, and short-term and long-term				
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid				

Financial Statements and Notes

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private sector business.

A "fund" is a group of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District has two proprietary funds: Sewer Operations and Water Operations. Proprietary funds distinguish operating revenues and expenses from non-operating items.

The notes provide additional information that is essential to fully understanding the data provided in the financial statements. Below are summaries and comparisons of the fund financial statements.

Net Position

Table 1 Summary of Net Position June 30, 2020 and 2019

	Enterprise Funds					
					Dollar	Percent
		2020		2019	Change	Change
Assets						
Current and other assets	\$	3,258,248	\$	3,630,092	\$ (371,844)	-10%
Non current assets		6,441,203		6,350,897	90,306	1%
Total Assets		9,699,451		9,980,989	(281,538)	-3%
Deferred Outflows of Resources						
Deferred pension adjustments		428,664		449,116	(20,452)	-5%
Deferred OPEB adjustments		135,894		35,000	100,894	288%
Total Deferred Outflows of Resources		564,558		484,116	80,442	17%
Liabilities						
Current liabilities		578,234		1,188,796	(610,562)	-51%
Noncurrent liabilities		7,945,516		7,872,466	73,050	1%
Total Liabilities		8,523,750		9,061,262	(537,512)	-6%

Deferred pension adjustments		82,076		97,020	(14,944)	-15%
Deferred OPEB adjustments		67,387		81,389	(14,002)	-17%
Total Deferred Inflows of Resources		149,463		178,409	(28,946)	-16%
Net Position						
Net investment in capital assets		1,309,712		915,280	394,432	43%
Restricted						
Debt Service		940,599		910,609	29,990	3%
Capital Facilities		250,984		195,422	55,562	28%
Unrestricted		(910,499)		(795,877)	(114,622)	14%
Total Net Position	\$	1,590,796	\$	1,225,434	\$ 365,362	30%

Net position increased by \$365,362 to \$1,590,796 in FY 2019/20 as described below:

- Total assets decreased by \$281,538, mainly due to reduction of intergovernmental receivables. Deferred outflows of resources increased by \$80,442.
- Current liabilities (obligations due within 12 months) decreased by \$610,562. The net decrease was
 due primarily to a decrease in the accounts payable of \$600,498 for related storm emergency costs
 paid to the County of Lake.

- Non-current (long-term) liabilities decreased by \$73,050. Long-term liabilities are reduced each
 year as each series on the outstanding debt principal amounts are paid back to the bondholders.
 Additional information on the District's non-current liabilities can be found in Note 5 Long-Term
 Liabilities.
- The largest portion of the District's net position reflects its investment in capital assets (e.g. land, sewer & water lines and improvements, buildings, machinery, equipment, and vehicles) net of outstanding debt. The District uses these capital assets to provide services for the residents and businesses in its service area.
- Although the District's investment in its capital assets is reported net of debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used or sold to liquidate District liabilities. The remaining balance of the unrestricted net position may be used to meet the District's ongoing obligations to its customers and creditors. The net position also included restricted assets required by various debt agreements restricting revenues pledged to repay debt and restricted assets for capital facilities.

Revenues, Expenses, and Changes in Net Position Statement Analysis

Table 2 Summary of Changes in Net Position Statement of Revenues, Expenses, and Changes in Net Position For the Fiscal Years Ended June 30, 2020 and 2019

	Enterprise Funds				
		2020	2019	Dollar	Percent

Non-Operating Revenues (Expenses)					
Interest Income		15,855	26,643	(10,788)	-40%
Debt Interest		(176,909)	(186,536)	9,627	-5%
Total Non-Operating Revenues (Expenses)		(161,054)	(159,893)	(1,161)	1%
Change in Net Position Before Special Items & Transfers		(170,941)	(322,771)	151,830	-47%
Proceeds for Storms Emergency Response & Repairs		536,303	1,087,144	(550,841)	-51%
Expenses for Storms Emergency Response & Repairs			(1,068,253)	1,068,253	100%
Change in Net Position		365,362	(303,880)	669,242	-220%
Net Position - Beginning of Year		1,225,434	1,529,314	(303,880)	-20%
Net Position - End of Year	\$	1,590,796	\$ 1,225,434	\$ 365,362	30%

The statement of revenues, expenses, and changes in net position reflects the District's operating and non-operating revenues by major sources and operating and non-operating expenses by categories.

The District's \$365,362, 30 percent change in net position during FY 2019/20 was characterized as follows:

- Total operating revenues increased by \$253,595, mainly due to increases in the sewer and water service charges. Assessments collected from the County of Lake remain consistent and the Permits, Inspections and Miscellaneous revenues increased slightly by \$19,386.
- Total operating expenses increased by \$100,604 from the prior fiscal year primarily due to continued disaster expenses from the 2019 rain storms. The District submitted FEMA/CalOES funding requests to cover the unanticipated disaster expenses and has had much success recovering 94 percent of the expenses.

Capital Asset Administration

Table 3 Capital Assets (Net of Depreciation) June 30, 2020 and 2019

	Business-Type Activities							
	2020	2020 2019		Percent Change				
Land (not depreciated)	\$ 607,918	\$ 607,918	\$ -	0%				
Structures and improvements	2,042,109	2,161,248	(119,139)	-6%				
Equipment, vehicles and machinery	499,989	300,877	199,112	66%				
Infrastructure	3,291,187	3,280,854	10,333	0%				
Total	\$ 6,441,203	\$ 6,350,897	\$ 90,306	1%				

The District's net capital assets increased from \$6,350,897 to \$6,441,203 for the year ended June 30, 2020. The total increase was \$90,306, partly due to the addition of a vehicle and a water main line replacement. Details of the capital asset transactions can be found on page 28, Note 3.

Debt Administration

 $Table\ 4$ Outstanding Long-Term Liabilities and Debt (net of debt discounts/premiums) $June\ 30,2020\ and\ 2019$

	Business-Type Activities					
		2020		2019	Dollar Change	Percent Change
Liabilities						-
Compensated Absences	\$	29,118	\$	59,604	\$ (30,486)	-51%
Total Liabilities		29,118		59,604	(30,486)	-51%
Debt						
Bonds		3,009,161		3,190,424	(181,263)	-6%
Loans		1,605,330		1,711,693	(106,363)	-6%
Certificates of Participation		517,000		533,500	(16,500)	-3%
Total Debt		5,131,491		5,435,617	(304,126)	-6%
Total Long-Term Liabilities and Debt	\$	5,160,609	\$	5,495,221	\$ (334,612)	-6%

The District's long-term debt was for the infrastructure of water lines, sewer lines, pump stations and processing plant. At year end June 30, 2020, the long-term debt decreased from \$5,495,221 to \$5,160,609 due to payments and changes in compensated absences. Details of the debt outstanding can be found on pages 29-30, Note 5.

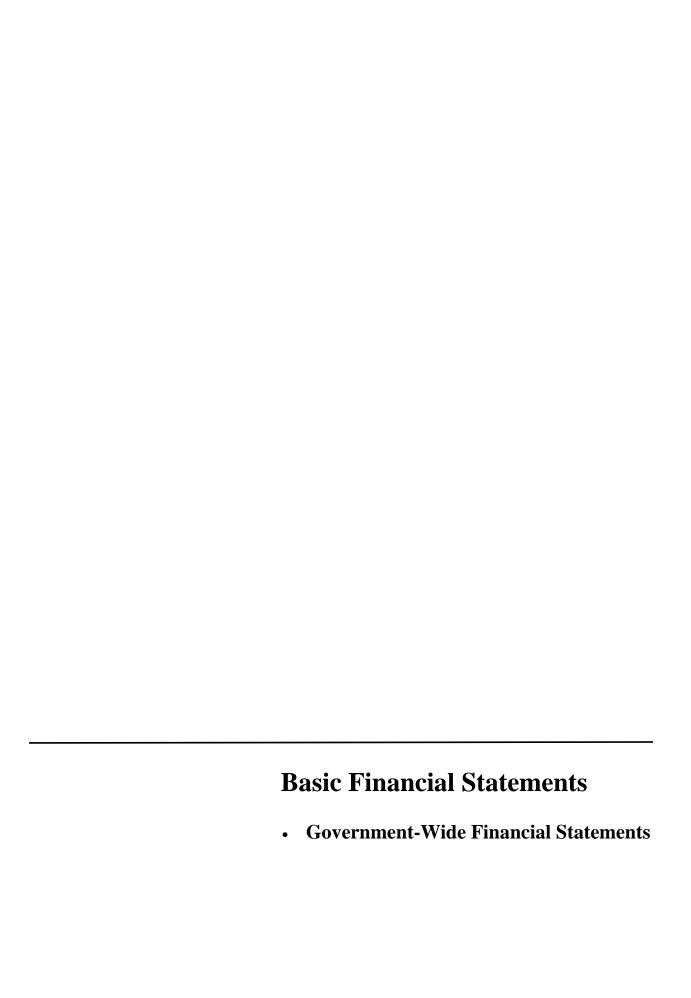

Economic Factors and Next Year's Budget

For fiscal year 2019/20, Hidden Valley Lake Community Services District had three (3) new residential water connections and four (4) new residential sewer connections. This is consistent with numbers throughout recent years. The housing market appears to have stabilized, and new construction is once again available throughout the community due to the rescission of the meter moratorium imposed by the State of California. FEMA/CalOES public assistance for the hydraulically overladed sewer systems of 2017 and 2019 significantly reduced current liabilities.

A first draft of a comprehensive rate study was conducted, and revisions are expected to be finalized in fiscal year 20/21. The damaging effects of increased natural disasters in the area have prioritized the need for disaster mitigation projects. The plan is to increase water, sewer and recycled water use charges to provide for increased operational costs, replacement of infrastructure and build up the Reserve Funds in both the Water and Sewer Enterprise Funds.

Requests for Information

This financial report is designed to provide citizens, customers, taxpayers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have any questions about this report or need additional financial information, please contact Dennis White, General Manager, Hidden Valley Lake Community Services District, 19400 Hartmann Road, Hidden Valley Lake, CA 95467, 707-987-9201, dwhite@hvlcsd.org.

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Hidden Valley Lake Community Services District is a public corporation formed in 1984 under the provisions of the Community Services District Law, Division 3 of Title 6 (commencing with Section 61000) of the Government Code of the State of California. The District was formed for the purposes of providing for the collection of sewage, waste and storm water of the District and of its residents as well as the supply of water to the residents of the District. On January 1, 1993, Stonehouse Mutual Water Company merged with Hidden Valley Lake Community Services District. Stonehouse Mutual Water Company was a mutual water company which had been organized in June 1968 to provide water and sewer services to the owners of Hidden Valley Lake Association lots. The merger was approved by the shareholders with authorization to transfer all assets and liabilities to the District as of December 31, 1992, and dissolve Stonehouse Mutual Water Company. Notification was received from the Franchise Tax Board that the Certificate of Dissolution was filed as a conditional dissolution on January 21, 1993. Upon the issuance of a Tax Clearance Certificate by the Franchise Tax Board, the corporation was dissolved.

The activities of the District are governed by a Board of Directors, each of whom is elected to office for a term of four years by the registered voters of the District.

Generally accepted accounting principles require government financial statements to include the primary government and its component units. Component units of a governmental entity are legally separate entities for which the primary government is considered to be financially accountable and for which the nature and significance of their relationship with the primary government are such that exclusion would cause the combined financial statements to be misleading. The primary government is considered to be financially accountable if it appoints a majority of an organization's governing body and is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on the primary government.

Component Units

Based on the application of the criteria set forth by the Governmental Accounting Standards Board, management has determined that there are no component units of the District.

Joint Agencies

The District is a participant in the Special District Risk Management Authority (SDRMA), which is a joint powers agency organized for the purpose of pooled joint-protection coverage to member entities. SDRMA operates public entity pools for auto and general liability coverage, plus workers compensation and errors and omissions coverage and pool purchases excess insurance for members. Complete audited financial statements of SDRMA can be obtained at 1112 I Street, Suite 300, Sacramento, CA 95814. The District is not financially accountable for this organization and therefore it is not a component unit under Statement Nos. 14, 39 and 61 of the Governmental Accounting Standards Board.

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of Presentation

Government-Wide Financial Statements

The Statement of Net Position and Statement of Activities display information on all the activities of the District. These statements include the financial activities of the overall District. Eliminations have been made to minimize the double counting of internal activities. These statements present the business-type activities of the District, which rely to a significant extent on assessments and fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each different identifiable activity of the District's business-type activities. Direct expenses are those that are specifically associated with a program or function and; therefore, are clearly identifiable to a particular function. Program revenues include (1) charges paid by the recipients of goods and services offered by the program, (2) operating grants and contributions, and (3) capital grants and contributions. Revenues that are not classified as program revenues, are presented instead as general revenues.

Fund Financial Statements

The fund financial statements provide information about the District funds, which are organized into the proprietary fund type. The operations of the District are organized as a series of sub-funds consolidated into two major proprietary funds which account for the total water and sewer operations. An emphasis is placed on major funds within the proprietary category; each is displayed in a separate column.

The District reports the following major proprietary funds:

- The Sewer Operations fund is an enterprise fund used to account for activity related to providing customers with sewer service and billing for service provided by the District.
- The Water Operations fund is an enterprise fund used to account for activity related to providing customers with water service and billing for service provided by the District.

C. Basis of Accounting and Measurement Focus

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange include revenue from grants, entitlements, and donations. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Cash and Cash Equivalents

For purposes of the accompanying Statement of Cash Flows, the District considers all highly liquid investments with a maturity of three months or less when purchased, including investments with fiscal agent, to be cash equivalents.

E. Investments

The District pools cash and investments of all funds. Each fund's share in this pool is displayed in the accompanying financial statements as cash and investments.

Investment transactions are recorded on the trade date. The fair value of investments is determined annually. Investments in nonparticipating interest-earning investment contracts are reported at cost; short term investments are reported at amortized cost, investments in the State of California Local Agency Investment Fund, an external pool, are reported at amortized cost which approximates fair value, and the fair value of all other investments are obtained by using quotations obtained from independent published sources or by the safekeeping institution. The fair value represents the amount the District could reasonably expect to receive for an investment in a current sale between a willing buyer and seller.

Income from pooled investments is allocated to the individual funds based on the fund or participant's average daily cash balance at quarter end in relation to the total pool investments. Income from non-pooled investments is recorded based on the specific investments held by the fund.

F. Receivables

Receivables consist mainly of user fees, interest, intergovernmental, assessments, and delinquent assessments. Although Management believes all assessments are ultimately collectible because they are collected with property taxes, management has established an allowance for doubtful accounts of \$0 for the Sewer Operations fund and \$0 for the Water Operations fund. Accounts receivables are stated net of these amounts.

Assessments receivable are recognized when billed. Assessments receivable shown in the financial statements include only those assessments currently due or delinquent.

G. Other Assets

Inventory

Inventory items are recorded as expenses at the time inventory is purchased rather than when consumed. Records are not maintained of inventory and supplies on hand, although these amounts are not considered material.

Prepaid Costs

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. The cost of prepaid items is recorded as expenses when consumed rather than when purchased.

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Capital Assets

Capital assets, including public domain (infrastructure such as roads, bridges, sidewalks, sewer and similar items) are defined by the District as assets with a cost of \$1,000 or more. Capital assets are recorded at historical cost or estimated historical cost if actual historical cost is unavailable. Contributed capital assets are valued at their acquisition value at the time of donation.

Capital assets used in operations are depreciated or amortized using the straight-line method over the assets' estimated useful lives. The range of estimated useful lives by type of asset is as follows:

<u>Depreciable Asset</u>	Estimated Lives
Equipment	5 to 30 years
Structures and improvements	5 to 30 years
Infrastructure	20 to 75 years

Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

I. Assessment Revenue

The District levies special assessments on the property owners within the District boundaries. The special assessments are collected along with property taxes by the County of Lake.

Lake County assesses properties, bills, collects, and distributes the assessments to the District.

Assessments are due in two installments (secured roll) on November 1 and March 12 and become delinquent after December 10 and April 10, respectively.

J. Interfund Transactions

Interfund transactions are reflected as either loans, services provided or used, reimbursements or transfers.

Loans reported as receivables and payables are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans) as appropriate and are subject to elimination upon consolidation.

Services provided or used, deemed to be at market or near market rates, are treated as revenues and expenses. These services provide information on the net cost of each government function and therefore are not eliminated in the process of preparing the government-wide statement of activities.

Reimbursements occur when the funds responsible for particular expenses repay the funds that initially paid for them. Such reimbursements are reflected as expenses in the reimbursing fund and reductions to expenses in the reimbursed fund.

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Interfund Transactions (Continued)

All other interfund transactions are treated as transfers. Transfers between funds are netted as part of the reconciliation to the government-wide presentation.

K. Compensated Absences

The District's policy regarding compensated absences is to permit employees to accumulate earned but unused vacation leave. The liability for these compensated absences is recorded as long-term liabilities in the government-wide and proprietary fund financial statements. The current portion of this debt is estimated based on historical trends.

L. Pension

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pension, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plan (Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date June 30, 2018 Measurement Date June 30, 2019

Measurement Period June 30, 2018 to June 30, 2019

M. Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date June 30, 2018 Measurement Date June 30, 2019

Measurement Period June 30, 2018 to June 30, 2019

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense) until then. The District has two items that qualify for reporting in this category. These items relate to the outflows from changes in the net pension liability and net OPEB liability and are reportable on the Statement of Net Position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting in this category. These items relate to the inflows from changes in the net pension liability and net OPEB liability and are reportable on the Statement of Net Position.

O. Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

P. Implementation of Governmental Accounting Standards Board (GASB) Statements

The following Governmental Accounting Standards Board (GASB) Statement has been implemented, if applicable, in the current financial statements.

Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance. This Statement extends the effective dates of certain accounting and financial reporting provisions in the Statements and Implementation Guides that were first effective for reporting periods beginning after June 15, 2018. The requirements of this Statement apply to the financial statements of all state and local governments. The GASB Statements effected by this statement include Statement No. 84 - Fiduciary Activities, Statement No. 87 – Leases, Statement No. 89 - Accounting for Interest Cost Incurred before the End of a Construction Period, Statement No. 90 - Majority Equity Interests, Statement No. 91 – Conduit Debt Obligations, Statement No. 92 – Omnibus 2020, and Statement No. 93 – Replacement of Interbank Offered Rates.

Q. Future Accounting Pronouncements

The following GASB Statements will be implemented in future financial statements:

Statement No. 84 "Fiduciary Activities"

The requirements of this statement are effective for periods beginning after December 15, 2019. (FY 20/21)

Statement No. 87 "Leases"

The requirements of this statement are effective for periods beginning after June 15, 2021. (FY 21/22)

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Q. Future Accounting Pronouncements (Continued)

Statement No. 89	"Accounting for Interest Cost Incurred Before the End of a Construction Period"	The requirements of this statement are effective for periods beginning after December 15, 2020. (FY 21/22)
Statement No. 90	"Majority Equity Interests"	The requirements of this statement are effective for periods beginning after December 15, 2019. (FY 20/21)

NOTE 2: CASH AND INVESTMENTS

A. Financial Statement Presentation

As of June 30, 2020, the District's cash and investments consisted of the following:

Cash: Cash on hand Deposits (less outstanding checks)	\$ 600 1,802,808
Total Cash	1,803,408
Investments: Investments with fiscal agent Local Agency Investment Fund (LAIF)	176,393 622,075
Total Investments	798,468
Total Cash and Investments	<u>\$ 2,601,876</u>

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 2: CASH AND INVESTMENTS (CONTINUED)

B. Cash

At year end, the carrying amount of the District's cash deposits (including amounts in checking and money market accounts) was \$1,802,808, and the bank balance was \$1,955,811. The difference between the bank balance and the carrying amount represents outstanding checks and deposits in transit. In addition, the District had cash on hand of \$600.

Custodial Credit Risk for Deposits - Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover its deposits or collateral securities that are in the possession of an outside party. The District complies with the requirements of the California Government Code. Under this code, deposits of more than \$250,000 must be collateralized at 105 percent to 150 percent of the value of the deposit to guarantee the safety of the public funds. The first \$250,000 of the District's deposits are insured by the Federal Deposit Insurance Corporation (FDIC). Deposits of more than the \$250,000 insured amount are collateralized.

C. Investments

Investments are selected based on safety, liquidity and yield. The District's investment policy is more restrictive than the California Government Code. Under the provisions of the District's investment policy and the California Government Code, the District may invest or deposit in the following:

Repurchase Agreements
Local Agency Investment Fund (LAIF)
U.S. Treasury Bonds/Notes/Bills
U.S. Government Agency Obligations
Bankers' Acceptances
Commercial Paper
Negotiable Certificates of Deposit
Time Certificates of Deposit
Reverse Repurchase Agreements

Fair Value of Investments - The District measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy as follows:

Level 1: Quoted prices for identical investments in active markets;

Level 2: Observable inputs other than quoted market prices; and,

Level 3: Unobservable inputs

The District's position in external investment pools is in itself regarded as a type of investment and looking through to the underlying investments of the pool is not appropriate. Therefore, the District's investment in external investment pools is not recognized in the three-tiered fair value hierarchy described above.

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 2: CASH AND INVESTMENTS (CONTINUED)

C. Investments (Continued)

At June 30, 2020, the District had the following recurring fair value measurements:

		Fair Valu	e Measuremen	ts Using
Investment Type	Fair Value	Level 1	Level 2	Level 3
Investments by Fair Value Level				
Money market mutual funds	\$ 176,393	<u>\$ 176,393</u>	\$ -	\$ -
Total Investments Measured at Fair Value	176,393	<u>\$ 176,393</u>	<u>\$ -</u>	<u>\$ -</u>
Investments in External Investment Pool				
LAIF	622,075			
Total Investments	<u>\$ 798,468</u>			

Interest Rate Risk - Interest rate risk is the risk of loss due to the fair value of an investment falling due to interest rates rising. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. To limit exposure to fair value losses resulting from increases in interest rates, the District's investment policy limits investment maturities to a term appropriate to the need for funds so as to permit the District to meet all projected obligations.

As of June 30, 2020, the District had the following investments, all of which had a maturity of 5 years or less:

			Maturities		Weighted
Investment Type	Interest Rates	0-1 year	1-5 years	Fair Value	Average Maturity (Years)
Investments Held by Fiscal Agents Money market mutual funds	Variable	<u>\$ 176,393</u>	<u>\$</u> _	<u>\$ 176,393</u>	
Total Investments Held by Fiscal Agents		176,393		176,393	
Pooled Investments LAIF	Variable	622,075	_	622,075	
Total Pooled Investments		622,075		622,075	
Total Investments		<u>\$ 798,468</u>	\$ -	\$ 798,468	

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 2: CASH AND INVESTMENTS (CONTINUED)

C. Investments (Continued)

Credit Risk - Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code or the District's investment policy, and the actual rating as of year-end for each investment type.

	Minimum	Standard &		
	Legal	Poor's	Moody's	% of
Investment Type	Rating	<u>Rating</u>	Rating	<u>Portfolio</u>
Money Market Mutual Funds	A	AAAm	Aaa-mf	22.09%
LAIF	N/A	Unrated	Unrated	77.91%
Total				100.00%

Custodial Credit Risk - Custodial credit risk for investments is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover its deposits or collateral securities that are in the possession of an outside party. To mitigate the custodial credit risk, the District's investment policy requires that all securities owned by the District shall be held in safekeeping by a third party bank trust department.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer of securities. When investments are concentrated in one issuer, this concentration presents a heightened risk of potential loss. The District's investment policy contains limitations on the amount that can be invested in any one issuer. All investments of the District were pooled with LAIF, which holds a diversified portfolio of high quality investments, or held by fiscal agents.

D. Investment in External Investment Pool

The District maintains an investment in the State of California Local Agency Investment Fund (LAIF), managed by the State Treasurer. This fund is not registered with the Securities and Exchange Commission as an investment company, but is required to invest according to California State Code. The Local Investment Advisory Board (Board) has oversight responsibility for LAIF. The Board consists of five members as designated by State Statute. At June 30, 2020, the District's investment in LAIF valued at amortized cost was \$622,075 and is the same as the value of the pool shares. There are no restrictions on withdrawal of funds. The total amount invested by all public agencies in LAIF on that day was \$100.9 billion. Of that amount, 96.63 percent is invested in non-derivative financial products and 3.37 percent in structured notes and asset-backed securities.

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 3: CAPITAL ASSETS

Capital assets activity for the year ended June 30, 2020, was as follows:

	Balance July 1, 2019	Additions	Retirements	Balance June 30, 2020
Capital Assets, Not Being Depreciated Land	\$ 607,918	\$ -	\$ -	\$ 607,918

Individual issues of debt payable outstanding at June 30, 2020, are as follows:

Bonds:

Sewer System Reassessment District No. 1 Limited Obligation Refunding Improvement Bonds Series 2016, issued March 9, 2016 in the amount of \$3,650,000, payable in annual installments of \$150,000-\$280,000 with an interest rate of 3.25-3.50% and maturity on September 2, 2032. The bonds were used to refund the Improvement Bonds Series 1995-2 which were used to finance improvements to the sewer system. The bonds are secured by a pledge of reassessment revenues.

Total Bonds	2,982,000

\$ 2,982,000

1,605,330

Loans:

California Infrastructure and Economic Development Bank direct borrowing Loan, issued June 24, 2002 in the amount of \$3,000,000, payable in annual installments of \$61,530 to \$160,350 with an interest rate of 3.48% and maturity on February 1, 2032. The loan was used to finance the expansion and upgrade of the water system. Net system revenues and all amounts in the enterprise fund are pledged as collateral for the debt. In the event of default, the District agrees to pay accrued interest plus the principal of all unpaid installments under the related agreement.

Total Loans	1,605,330
Total Loans	1,005,530

Certificates of Participation:

2012 Series direct borrowing Certificate of Participation Water Reclamation Plant Energy Sustainability Project issued October 1, 2012, in the amount of \$640,000, payable in annual installments of \$14,000 to \$31,500 with an interest rate of 3.00% and maturity on August 1, 20141. The certificates of participation were used to finance the sewer system solar project. Net revenues are pledged as collateral for debt. In the event of default, the District agrees to pay accrued interest plus the principal of all unpaid installments under the related agreement.

ıll unpaid installments under the related agreement.	517,000
Total Certificates of Participation	517,000
Total	<u>\$ 5,104,330</u>

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 6: NET POSITION

The government-wide and proprietary fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted.

- Net investment in capital assets consists of capital assets including restricted capital assets, net
 of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages,
 notes or other borrowings that are attributable to the acquisition, construction or improvement of
 those assets.
- Restricted net position consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- Unrestricted net position all other net position that does not meet the definition of "restricted" or "net investment in capital assets".

Net Position Flow Assumption

When a government funds outlays for a particular purpose from both restricted and unrestricted resources, a flow assumption must be made about the order in which the resources are considered to be applied. When both restricted and unrestricted net position are available, it is considered that restricted resources are used first, followed by the unrestricted resources.

NOTE 7: PENSION PLAN

A. General Information about the Pension Plan

Plan Description

All qualified permanent and probationary employees are eligible to participate in the District's Miscellaneous Employee Pension Plan (Plan), a cost-sharing multiple employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plan are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Effective January 1, 2013, the District added a retirement tier for the Miscellaneous Plan for new employees as required under the Public Employee Pension Reform Act (PEPRA). New employees hired on or after January 1, 2013 will be subject to new, lower pension formulas, caps on pensionable income levels and new definitions of pensionable income. In addition, new employees will be required to contribute half of the total normal cost of the pension benefit unless impaired by an existing Memorandum of Understanding. The cumulative effect of these PEPRA changes will ultimately reduce the District's retirement costs.

Summary of Rate of Tiers and Eligible Participants

Open for New Enrollment Miscellaneous PEPRA

Miscellaneous members hired on or after January 1, 2013

Closed to New Enrollment Miscellaneous

Miscellaneous members hired before January 1, 2013

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 7: PENSION PLAN (CONTINUED)

A. General Information about the Pension Plan (Continued)

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 (age 52 for Miscellaneous Plan Members if membership date is on or after January 1, 2013) with statutorily reduced benefits. Retirement benefits are paid monthly for life. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

Each Rate Tier's specific provisions and benefits in effect at June 30, 2020, are summarized as follows:

			Monthly Benefits
	Benefit	Retirement	as a % of
	<u>Formula</u>	Age	Eligible Compensation
Miscellaneous	2.5% @ 55	50-55	1.420% to 2.418%
Miscellaneous PEPRA	2.0% @ 62	50-62	1.000% to 2.500%

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

	Employer Contribution <u>Rates</u>	Employee Contribution Rates	Employer Paid Member Contribution Rates
Miscellaneous	11.432%	8.000%	0.000%
Miscellaneous PEPRA	6.985%	6.750%	0.000%

For the year ended June 30, 2020, the contributions recognized as part of pension expense for the Plan was as follows:

			Contributions	-Employee
	<u>Contribution</u>	ons-Employer	(Paid by E	mployer)
Miscellaneous	\$	195,406	\$	-

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 7: PENSION PLAN (CONTINUED)

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pension

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2019, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

The District's proportionate share of the net pension liability for the Plan as of June 30, 2019 and 2020 was as follows:

	Proportion June 30, 2019	Proportion June 30, 2020	Change- Increase (Decrease)
Miscellaneous	.03725%	.03809%	.00084%

As of June 30, 2020, the District reported a net pension liability for its proportionate share of the net pension liability of the Plan as follows:

	Proportionate
	Share of Net
	Pension Liability
Miscellaneous	<u>\$ 1,525,450</u>
Total Net Pension Liability	<u>\$ 1,525,450</u>

For the year ended June 30, 2020 the District recognized pension expense of \$336,470. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

		red Outflows Resources	Deferred Inflows of Resources	
Pension contributions subsequent to the measurement date	\$	209,325	\$	_
Changes of assumptions		72,740	(25,786)
Difference between expected and actual experience		105,949	(8,209)
Difference between projected and actual earnings on				
pension plan investments		-	(26,670)
Difference between District contributions and proportionate				
share of contributions		7,872	(2,024)
Change in employer's proportion		32,778	(19,387)
Total	\$	428,664	(<u>\$</u>	82,076)

\$209,325 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 7: PENSION PLAN (CONTINUED)

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pension (Continued)

Year Ended	
June 30	
2021	\$ 122,597
2022	(10,466)
2023	19,744
2024	5,388
Thereafter	<u>-</u>
Total	<u>\$ 137,263</u>

Actuarial Assumptions

The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date June 30, 2018 Measurement Date June 30, 2019

Actuarial Cost Method Entry-Age Normal Cost Method

Actuarial Assumptions:

Discount Rate 7.15% Investment Rate of Return 7.15% Inflation 2.50%

Salary Increases Varies by entry-age and service

Mortality Rate Table

Post-Retirement Benefit Increase

Derived using CalPERS' membership data for all funds

Contract COLA up to 2.50% until Purchasing Power

Protection Allowance Floor on Purchasing Power applies

The mortality table used was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90 percent of scale MP 2016. For more details on this table, please refer to the December 2017 Experience Study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

Discount Rate

The discount rate used to measure the total pension liability was 7.15 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 7: PENSION PLAN (CONTINUED)

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pension (Continued)

Long-Term Expected Rate of Return (Continued)

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Asset Class	Assumed Asset <u>Allocation</u>	Real Return Years 1 – 10(a)	Real Return Years 11+(b)
Global Equity	50.0%	4.80%	5.98%
Fixed Income	28.0%	1.00%	2.62%
Inflation Assets	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Assets	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	-0.92%
Total	<u> 100.0%</u>		

⁽a) An expected inflation of 2.00% used for this period

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability for the Plan as of the measurement date, calculated using the discount rate for the Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	1%	Discount	1%
	Decrease	Rate	Increase
	6.15%	7.15%	8.15%
Miscellaneous	\$ 2.337.968	\$ 1.525.450	\$ 854.774

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

⁽b) An expected inflation of 2.92% used for this period

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 8: OTHER POSTEMPLOYMENT BENEFITS (OPEB)

A. General Information about the OPEB Plan

Plan Description

The District provides a single-employer defined benefit healthcare plan (the "Retiree Health Plan") for eligible employees. The Retiree Health Plan provides lifetime healthcare insurance for eligible retirees through Special District Risk Management Authority (SDRMA) the District's group health insurance plan. The Board of Directors reserves the authority to review and amend the funding policy from time to time, in order to ensure that the funding policy continues to best suit the circumstances of the District. No assets were accumulated in a trust that meets the criteria in paragraph 4 of Governmental Accounting Standards Board Statement No. 75.

The coverage requires the employee to meet the following requirements:

- Satisfaction of requirements for retirement under CalPERS, and
- Retirement from the District having reached at least age 55 and completing a minimum of 5 years of service with the District.

Benefits Provided

The District provides the following benefits to qualifying retirees who elect to continue medical coverage offered by the District. The benefits continue for the retiree's lifetime:

- 50 percent of the medical premiums for the retiree
- 50 percent of the medical premiums for the retiree's spouse, if covered, while the retiree is living

A retiree may elect to cover eligible dependents other than a spouse, provided the retiree pays 100 percent of any additional premium for their coverage.

Coverage and/or the premiums subsidy above are not available in retirement in these circumstances:

- For survivors, after the retiree's death (other than as available under COBRA)
- For retirees eligible for PERS retirement from the District but failing to satisfy the age and service requirements above
- For retirees who meet the age and service requirements but do not continue their medical coverage through the District

The 2018 monthly healthcare premium rates are shown below:

SDRMA 2018 Rates Northern California						
Plan	Employee Only		Employee + 1		Eı	nployee +2
Blue Shield PPO Gold	\$	814.98	\$	1,630.98	\$	2,117.52
Gold PPO Medicare		523.26		1,046.52		1,569.78

Employees Covered By Benefit Terms

At June 30, 2020 the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	4
Active employees	12
Total	16

B. Net OPEB Liability

The District's net OPEB liability of \$1,600,339, was measured as of June 30, 2019, and was determined by the actuarial valuation as of June 30, 2018.

Actuarial Assumptions and Other Inputs

The net OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Funding method Entry-Age Normal Cost, level percent of pay

Asset valuation method Market value of assets

Salary increases 3.25% per year, since benefits do not depend on salary, this used only to

allocate the cost of benefits between services years

Discount rate 3.62% as of June 30, 2018 and 3.13% as of June 30, 2019

Healthcare cost trend rates 7.0% for 2018, decreasing .5% per year to an ultimate rate of 5.0% for

2024 and later years

General inflation rate 2.75% per year

Demographic actuarial assumptions used in this valuation are based on the 2014 experience study of the California Public Employees Retirement System using data from 1997 to 2011, except for a different basis used to project future mortality improvement. The representative mortality rates were those published by CalPERS adjusted to back out 20 years of Scale BB to central year 2008.

C. Changes in the Net OPEB Liability

	Net OPEB <u>Liability</u>
Balance at June 30, 2019	\$ 1,310,799
Changes for the year:	
Services cost	153,728
Interest	52,382
Change of assumptions	118,430
Benefit payments	(35,000)
Net changes	289,540
Balance at June 30, 2020	\$ 1,600,339

Changes of assumptions reflects a change in the discount rate from 3.62 percent to 3.13 percent.

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 8: OTHER POSTEMPLOYMENT BENEFITS (OPEB) (CONTINUED)

C. Changes in the Net OPEB Liability(Continued)

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current discount rate:

	1%	1% Decrease Current Ra		urrent Rate	1	% Increase
	((2.13%)		(3.13%)		(4.13%)
Net OPEB liability	\$	1,888,132	\$	1,600,339	\$	1,371,876

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Trend Rates

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage point lower or 1-percentage point higher than the current healthcare cost trend rates:

	Cu	irrent Trend			Cı	ırrent Trend
		-1%	Cu	rrent Trend		+1%
Net OPEB Liability	\$	1,321,111	\$	1,600,339	\$	1,989,419

D. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the District recognized OPEB expense of \$207,489. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	red Outflows Resources		rred Inflows Resources
Contributions made subsequent to the measurement date Changes of assumptions	\$ 32,845 103,049	\$ (- 67,387)
Total	\$ 135,894	(<u>\$</u>	67,387)

\$32,845 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized in the next fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended		
2021	(\$	1,379)
2022	(1,379)
2023	(1,379)
2024	(1,379)
2025	(5,107)
Thereafter	(25,039)
	(<u>\$</u>	35,662)

Notes to Basic Financial Statements For the Year Ended June 30, 2020

NOTE 9: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District has joined together with other municipalities to participate in the Special District Risk Authority Management (SDRMA) for general liability, vehicle liability, and errors and omissions purposes. SDRMA is a public entity risk pool which serves as a common risk management and insurance program. The District pays an annual premium to SDRMA for its insurance coverage. The agreements with SDRMA provide that they will be self-sustaining through member premiums and will reinsure through commercial companies for excess coverage.

There is no claims liability to be reported based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

There are no significant reductions in insurance coverage from prior years and there have been no settlements exceeding the insurance coverages for each of the past three fiscal years.

NOTE 10: OTHER INFORMATION

A. Subsequent Events

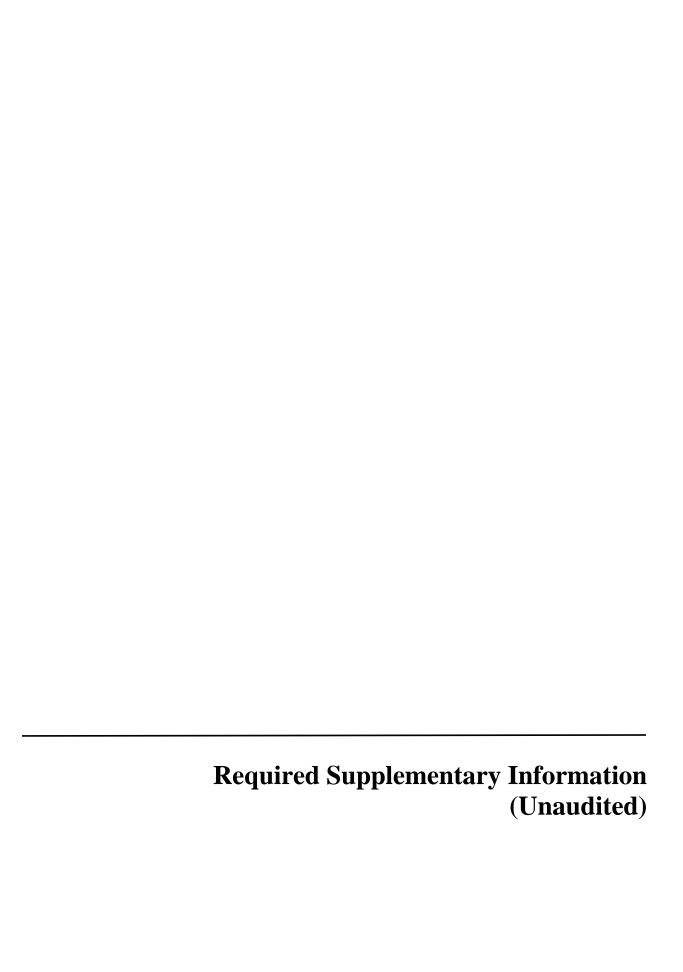

In December 2019, a novel strain of coronavirus has spread around the world resulting in business and social disruption. The coronavirus was declared a Public Health Emergency of International Concern by the World Health Organization on January 30, 2020. The operations and business results of the District could potentially be adversely affected by this global pandemic. The extent to which the coronavirus may impact business activity or investment results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions required to contain the coronavirus. The District has not included any contingencies in the financial statements specific to this issue.

Management has evaluated events subsequent to June 30, 2020 through December 21, 2020, the date on which the financial statements were available for issuance. Management has determined no subsequent events requiring disclosure have occurred.

B. Federal Emergency Management Administration (FEMA)/Office of Emergency Services (OES) Application and Reimbursement Status for 2017 Storm Emergency

In January and February 2017, there were storm events that resulted in emergency response costs and damage to infrastructure. A formal disaster emergency was declared by the District and County. The State and federal governments subsequently adopted an emergency declaration that provided for federal and State assistance in reimbursement of certain eligible costs incurred by the District. The District submitted several applications to FEMA/OES representatives.

FEMA/OES reviewed and approved requests for reimbursement and the District recorded a receivable of \$260,636 as of June 30, 2020.

NOTE 1: SCHEDULE OF PROPORTIONATE SHARE OF THE NET PENSION LIABILITY

Change of Assumptions and Methods

CalPERS has implemented a new actuarial valuation software system for the June 30,2018, valuation. This new system has refined and improved calculation methodology. In December 2017, the CalPERS Board of Administration (the Board) adopted new mortality assumptions for plan participation in the Public Employee's Retirement Fund (PERF). The new mortality table was developed from the December 2017 experience study and includes 15 years of projected ongoing mortality improvement using 90 percent of scale MP 2016 published by the Society of Actuaries. The inflation assumption was reduced from 2.75 percent to 2.50 percent.

The assumptions for individual salary increases and overall payroll growth were reduced from 3.00 percent to 2.75 percent. These changes are being implemented in two steps commencing in the June 30, 2018, funding valuation. For financial reporting purposes, these assumption changes are fully reflected in the results for Fiscal Year 2017-18. In Fiscal Year 2014-15, the financial reporting discount rate was increased from 7.50 percent to 7.65 percent resulting from eliminating the 15 basis-point reduction for administrative expenses. The funding discount rate remained at 7.50 percent during this period, and remained adjusted for administrative expenses.

NOTE 2: SCHEDULE OF CONTRIBUTIONS

Methods and assumptions used to determine the contribution rates were as follows:

Valuation Date June 30, 2017

Actuarial cost method Individual Entry Age Normal

Amortization method Level Percentage of Payroll and Direct Rate Smoothing Remaining Amortization Period Differs by employer rate plan but no more than 30 years

Asset valuation method Fair value Inflation 2.75%

Salary increases Varies based on entry age and service

Investment rate of return 7.38%

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors Hidden Valley Lake Community Services District Hidden Valley Lake, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the business-type activities and each major fund of Hidden Valley Lake Community Services District,

California (District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 21, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified

To the Board of Directors Hidden Valley Lake Community Services District Hidden Valley Lake, California

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
